

Statistics & Data Science Internships at P&G

Rob Baker

Director, Data Science & AI
Procter & Gamble

Qing Ji

Statistician, Advanced Consumer Modeling & Statistics
Procter & Gamble

Procter & Gamble Facts

- Established in 1837 (Initially a Soap and Candle Company, Cincinnati, Ohio)

James Gamble & William Procter

P&G Today

GROWING

Procter & Gamble Business Units and Brands

Baby	Feminine Care	Family	Fabric	Home	Hair	Skin & Personal Care	Grooming	Oral	Personal Health Care
  	 	 	   	   	  	  	  	 	 

Corporate Functions

CES and Smart Products

IT Data Science

Work on compelling business problems

USING DATA TO IDENTIFY OPPORTUNITY

1. MARKETING SPEND
2. RETAIL EXECUTION
3. SUPPLY CHAIN OPTIMIZATION

BRIEF

P&G's sales jump as ad spending shrinks, data-driven marketing ramps up

P&G cuts annual ad spend by \$350M as it targets 'smart audiences'

P&G Data Science

Cincinnati Geneva Guangzhou Singapore Beijing Germany London

R&D Statistics & Data Science Organization

- 50+ Statisticians (Ph.D., MS and BS)
- 50+ Data Scientists (Ph.D., MS and BS)

DATA &
MODELING
SCIENCES
Unlocking Innovation

US Based Statistics & Data Science at P&G

- Cincinnati
- Boston

Statistics & Data Science at P&G

Europe

- UK
- Germany
- Belgium

Statistics & Data Science at P&G

Asia

- Beijing
- Singapore

Application Areas

Consumer Research

Product, Package and Process Development

Clinical Research

Application Areas

Claims

Biotech

Product Safety

Natural Language Processing & Generation

➤ Gain Consumer Insight on Unstructured Text Data

- *Survey of a Consumer Study*
- *Product Ratings & Reviews*
- *Consumer Complaints*

- BERT based NLP models
- Chatbots (GPT-3)

Consumer Education and Product Recommendation Olay Skin Advisor

Design and Analysis of Experiments for Product, Package and Process Development

Develop a new laundry formulation
with improved consumer benefit

Develop a new bottle design

Develop a new optimal process

Understanding Consumers Using Statistical Models

➤ Conjoint Analysis:

Measure consumers' likes & dislikes using choice-based questions rather than ratings

Brand	Tide	Gain
Price	\$20	\$15
Benefit	Clean	Scent
Your Choice	X	

➤ Bayesian Belief Network

Packaging Development via Computer Simulation

Business Problem: Reduce the cost for expensive creation of prototypes and testing for new bottle development

Statistical Method/Tool: Design & Analysis of Computer Experiments

Design:

Select input values to
feed the simulator

Space-filling
Design

Modeling:

Fit statistical surrogate model

Gaussian
Process
Model

Technical Skills

➤ Design and Analysis of Experiments

- Physical Experiments
- Computer Experiments
- Discrete Choice

➤ Explanatory and Predictive Modeling

- Linear Models, Generalized Linear Models and Non-linear Models
- Response Surface Methodology
- Statistical/Machine Learning, Deep Learning
- Multivariate methods, Partial Least Squares (PLS)
- Reliability Modeling

➤ Other Areas

- Bayesian Methods
- Multivariate Methods
- Natural Language Processing and Generation
- Internet of Things
- Recommendation Engines
- Computer Vision
- Statistical Process Control
- Evaluating Measurement Systems (Gauge R&R)

➤ Programming – R, Python, SAS etc.

My Thoughts on Internships

- Critical part of building your future
- Assess a career path and company/institution
- Build professional network, mentors
- We select the problem to match business needs with skills
- Successful internships often lead to full time offers

Reflect on Ji's Internships

- Critical part of building your future
- Successful internships often lead to full time offers
 - I went back to Cincinnati and joined P&G
- Assess a career path and company/institution
 - US corporate culture vs. academic
- Build professional network, mentors
 - I met my PhD advisor there
- We select the problem to match business needs with skills
 - 2009: SAS programmer (plots and tables)
 - 2011: GLMM
 - Get ready to learn

Ji's Learning on Seeking Internships

- Evaluate yourself against your peers and know your strength
 - Good at programming?
 - Good at “real world” projects?
- Effectively communicate to show your strength (STAR method)
 - Situation
 - Task
 - Action
 - Result
- Showcase your own research
 - the ability to learn and develop

Open Internships Summer 2023
