Academy

Topic: Leadership in Translational Statistical Research

Join us for our another insightful webinar on the topic of
leadership in the field of statistics and data science!

The focus of this event will be to discuss the conduct of
statistical research motivated by public health and
medicine, and how statisticians and data scientists can
ensure their work was translational impact.

*Statisticians and data scientists at any stage in their careers
are invited to attend.*

TUESDAY, APRIL 30, 2024
12-1 P.M. ET / 9-10 A.M. PT

NO FEE, ZOOM
PRE-REGISTRATION
REQUIRED
