Call for Abstracts

International Total Survey Error Workshop 2022

31 August - 2 September 2022

Hosted by
The Cathie Marsh Institute for Social Research and
The Social Statistics Department, School of Social Sciences
University of Manchester, United Kingdom

Total Error in Official Statistics: Current Practices and New Methods

In addition to traditional TSE topics, we are encouraging contributions on:

- **Evaluations of multiple error sources in official statistics**
- **Error frameworks and their use for administrative data products**
- **Total error frameworks for Big Data, social media data and new sources of data**
- **"Total statistical uncertainty" frameworks for estimates derived from nonprobability data sources**

- **Errors in data integration processes and integrated data products (including with nonprobability data sources)**
- **Use of quality profiles and declarations in official statistics**
- **Minimizing total error using ART (adaptive/responsive/tailored) designs and data collection strategies**
- **Statistical disclosure limitation error**
