

# NISS AFFILIATE PROGRAM

## MAKING CONNECTIONS TO TARGET CURRENT CHALLENGES

The NISS Affiliate Program brings together statistical, mathematical and data science professionals from all sectors – academia, industry, government / national labs – to support research, information dissemination, human resource development and networking.

All institutions are presented with challenges. These may range from statisticians trying to solve a specific statistical problem posed by a unique set of data to the challenges faced by managers seeking ways to provide stimulating career paths to retain exemplary data science employees. Affiliate institutions can take advantage of events NISS has in the pipeline or work to define new opportunities that will address their needs, and likely the needs of NISS colleagues as well.

The NISS Affiliates Program acts as a forum through which industry, academia and government partners to support data driven solutions for business, government and society.

## BENEFITS OF BECOMING A NISS AFFILIATE

Access to professional development events/workshops/meet-ups on current topics.

Access to a rich set of colleagues in the statistics / data science fields to connect and network with.

Ample opportunities to meet and plan events/activities with affiliate colleagues to help meet your institutional challenges.

Benefits of becoming an affiliate include:

- Priority and discounted registration at NISS sponsored workshops.
- Guaranteed acceptance at NISS sponsored conferences and workshops.
- Annual NISS Affiliates meeting held in conjunction with a national society meeting or with a NISS hosted or sponsored conference.
- Affiliate Award Fund for travel to/from NISS workshops and co-sponsored events (academic affiliates).
- Highlights about affiliates in quarterly NISS newsletters and other communications.
- Job announcements posted on the NISS website with unlimited word count.

## THE INSTITUTE

NISS is a national institute that delivers high-impact research in science and in public policy by leveraging the rich expertise of its staff with that of its base of affiliated organizations in academia, industry, and government. NISS works on issues where information and quantitative analysis are keys to solutions and decisions. NISS functions in three ways: as an expert advisor, as a basic researcher, and as a collaborator.

## MISSION

The National Institute of Statistical Sciences (NISS) is an independent research organization that serves as a neutral, objective expert in delivering research in science and public policy to its affiliates in academia, industry and government. NISS identifies, catalyzes and fosters high-impact cross-disciplinary and cross-sector research involving the statistical and data sciences.

The NISS Affiliates Program welcomes new members from government, industry, and academia.

Visit our Become an Affiliate page and fill out the form to let us know you are interested in becoming an affiliate. Or, simply contact the NISS office via email at [officeadmin@niss.org](mailto:officeadmin@niss.org).
