Topic: Leadership at the Intersection of Tech & Academia

Join us for our another insightful webinar on the topic of leadership in the field of statistics and data science.

The focus of this event will be to discuss how to successfully bridge the interests of academia and industry, and how statisticians and data scientists can build strong collaborations in both worlds.

Statisticians and data scientists at any stage in their careers are invited to attend.

TUESDAY, OCTOBER 17, 2023
12-1 P.M. ET / 9-10 A.M. PT
